[Data begins]-/*th3_d00r$_4r3_0p3n_c0m3_1n*/—---I'm old enough to remember when you had a chance for a decent life and a 01010100 career in [redacted]. But then ol' Saburo came in and started throwing his weight around, building factories, and [redacted]. That's when it all fell apart, and any crumbs from [redacted]. It's a cryin' shame the way we live now.

CEO of [redacted] Corporation./*ju5t_4_f4ncy_w0rd_f0r_h3ll*/ After elevating his father's [redacted] obscurity to become a global powerhouse, [redacted] is now widely regarded as the 01001000 founder of the Arasaka 0o154 empire. This former [redacted] transformed into [redacted] who now stands at the helm of [redacted]. He is a man who, for decades, has been rumored to be able to force even the most cold-blooded assassins to commit suicide at his command, which may say as much about his virtually absolute rule as it does his extraordinarily prolonged lifespan.

The only bodyguard of [redacted]. While obeying orders, he was unable to prevent the death of his master at the hands of [redacted] after the thieves, eventually leading him to a landfill, [redacted] – the sole living [redacted]. In his mission to find the truth, [redacted] every agent in the Night City. The ex-bodyguard is 01000101 driven by a desire for vengeance and [redacted]

[REDACTED] murderer to justice – even if it means working with a [redacted].

Few leave the corporate world 00100000 with their lives – fewer still with their souls intact. You've been there – you've bent the rules, exploited secrets and weaponized information. There's no such thing as a fair game, only winners and losers.

Daughter [redacted] and one of the 01001110 [redacted]. Her past is shrouded in secrecy and closely guarded by [redacted] life. The predominant theory about her early life suggests that she was [redacted] [REDACTED] she came of age. Only [redacted] world. Many 0o157 also believe that she [redacted] a fruitless halt. Although [redacted] within the company, the buzz around her involvement in [redacted] continues to grow. That said, separating truth from speculation remains nearly impossible. Rumors about [redacted] last long. And neither do the people who spread them. /*$h3'$_$t1ll_w41t1ng_4t_3mb3r$*/ Spotted in [redacted]. Trailing... Defences up. Car [redacted].

[redacted] bodyguard who also happens to be [redacted]. He was supposed to [redacted] [REDACTED] problems, but only ended up as one more threat among many. During [redacted] he declined their plea for help and gave them one last chance to [redacted]. He's never further than 00101110 a step away from [redacted].

The son of [redacted]. Ever since his young, rebellious years, there's been a lot of friction between [redacted] – that's anyone's guess. Known for his difficult

FEDERAL INTELLIGENCE AGENCY

personality and controversial opinions, he stands as [redacted] of the 01010101 Night City [redacted]. Despite his urgent calls for change [redacted] the helm – being a billionaire 0o157 is currently much more fun.

[redacted] bioengineer – an expert in [redacted] with a number of groundbreaking patents under his belt and one of the [redacted] project. Using [redacted] source code, [redacted] a piece of tech capable of communicating 00101110 with [redacted]. He has a pretty high opinion of himself – he believes he's [redacted] let him go...

There's a common saying in Night City: "From up top, all you see is clouds." But no, this isn't about the city's often crippling smog problem. Rather, it refers to the [redacted] who soar above the city in their immaculate AVs blissfully unaware of the streets below them. From top-floor penthouse, everyone else looks like ants – and that's how they're treated. And does anyone ever cry over a trampled ant? [redacted]. She just wants to make 01010011 sure none of that filth gets on her designer Sudo jacket.

I'll say it without shame: I'm a corpo and I'm proud of it. Bet you'd prefer to hear that I 00101110 hate my job, that my life has no meaning, right? You wish. I love my job and I love that I can [redacted], the best part of this town. I love looking at [redacted], monuments to human ingenuity and ambition. Working here makes me a better person.

What with a [redacted] the man. Well... his humanity was always questionable. [redacted] dirty laundry 0o153, but he likes to do things his own way. [redacted], he killed Johnny Silverhand during [redacted], after which Silverhand's

FEDERAL INTELLIGENCE AGENCY

[REDACTED] personality was [redacted]. If 01000001 [redacted] that Johnny's back, he'll probably want to [redacted] leave loose ends.

They say you can become a legendary rockerboy without all the sex and drugs, the manic depression, run-ins with the law and one toxic relationship 00101110 after another. But Johnny Silverhand's old school. Frontman for Samurai, charismatic visionary, rebel with a cause, [redacted] and the mind behind the cult singles "Chippin' In" and "Never Fade Away" – currently [redacted]. Silverhand met his [redacted]. But some rockerboys never really die. Point in case – [redacted], which – following a series of unexpected events – ended up in [redacted]. If you think spending [redacted] with a complete stranger, you'd be dead wrong. For an egomaniac and narcissist like Johnny, it's a living hell.

Alt Cunningham – [redacted] in Night City, the most [redacted] 00100000 and the only person who can put Johnny Silverhand in 01001001 [REDACTED] his place. Fun fact: [redacted] stole it for nefarious purposes, forcing 0o040 Alt to [redacted]. [redacted] Alt's consciousness, making her more [redacted] human. The last weak link to her past life is Johnny – he [redacted].

T-Bug is a textbook example of how solos and netrunners really aren't all that different. Both take on risky contracts that usually end in dust-ups with corporations or the law, ever walking the tightrope between life and death – after all, [redacted] a bullet. T-Bug's well-aware of this fact, and as a legit specialist in her field, she's fully within her rights to be picky about her contracts. Unlike more reckless

FEDERAL INTELLIGENCE AGENCY

netrunners, T-Bug intends to sail into retirement 01010011 age, preferably with enough eddies to leave this goddamn city behind for good.

Ever since [redacted], some netrunners have ditched cyberspace for realspace to 00100000 get their neurons popping. [redacted] play with fire, until one day she got burned trying to [redacted], hired by Wakako to pull her out of shit creek – though since [redacted] the whole time, it was a rather one-sided meeting.

Netrunners have a rep for thinking of themselves as the quickest, [REDACTED] sharpest and slickest operators out there. They ooze with the confidence that they can pull a fast one on just about anyone. Honestly, they're 0o146 usually right. But when they're wrong, they pay a heavy price. Vortex was one such 01010101 cocky chairjock. She let her confidence soar up and beyond the prudent precautions that would have kept her a step ahead. Unfortunately for her, this was one mistake she won't have the opportunity to learn from.

/*may_th3_c0d3_b3_w1th_y0u*/ I live in [redacted], where I can have a view of all of Night City. Whenever I can't sleep I look out my window, down at this bloated corpus of chrome, steel, and neon. From far away it's beautiful, 01001110 but I know getting any closer would end with my head ripped off and my soul corroded. I try not to get close. Never. No exceptions.

A devilishly talented musician, incorrigible rebel, celebrity, and rockerboy from Night City. People say different things about Kerry, but there's no doubt he's America's God of rock. [REDACTED] In the old days, he strummed next to Johnny Silverhand in the cult rock band Samurai. When the two drifted apart, Eurodyne kickstarted a solo career which, 01000100 in spite of its ups and downs, is still going strong. Kerry's proud of [redacted], though for someone of his fame, he's especially private about his personal life. For all 01000101 its numerous flaws, he's made Night City his

FEDERAL INTELLIGENCE AGENCY

own – his most faithful muse.

Us Cracks is a popular Japanese girl band who pack major arenas with their screaming fans – and now [redacted]. The band was formed when the [redacted] 0o157 put out a global call for three candidates with the perfect blend of charisma, talent and stage-presence in order to compete against [redacted]. It just 01010010 happens that the three winners were young, American-born Japanese girls – what a coincidence! Us Cracks is composed of Red Menace, Blue Moon and Purple Force – not their real names, of course, but pseudonyms chosen to reflect their personalities. They are trendsetters in the lazrpop genre, and are famous for their bombastic performances and charming, kawaii interactions with fans.

The most 00100000 diverse station on the airwaves! Featuring everything from K-pop to rock to rap and more. You'll hear this station played all over the city, so check it out; there's something for everyone. What a load of garbage. Damn station loses signal as soon as [redacted]. Of all the [redacted] in the city, it [redacted].

Evelyn is a beautiful [REDACTED] enigma. At first glance, she's nothing but riddles and contradictions: while Evelyn [redacted], she arranges a meeting in some streetgang dive bar. She seems to be [redacted], but she rounds up a rag-tag bunch of rookie mercs to swipe something for her. Humorous and charming, yet she drives a hard bargain. Puts her faith in professionals, but still wants to pull all the strings. When it comes to Evelyn, only one thing is certain: tread carefully. 01010100 Her beauty, cunning and fierce determination are a volatile mix.

One of braindance's most gifted editors and a skilled techie. If 01001000 she wanted to, she [redacted], but Judy values her independence too much 0o162 to sell out – she rejects every offer that comes her way. Her anarchist [REDACTED] spirit drew her to [redacted] people in Night City. Her

biggest flaw is that she can't keep her mouth shut [redacted] – something that always gets her in trouble. For some, though, it's [redacted]./*w4a7_4_d1>4*/

Throughout their lives, many a man has struggled to break free from their father's shadow./*d4ddy_1ssu3s_?*/But not Fredrik. The shadows suit him just fine. He has everything he needs – money and emotional fulfillment. Gottfrid is professional and knowledgeable, while Fredrik is 01010010 passionate and uncompromising. Together they form a duo that Night City happens to need. After all, someone has to [redacted].

Gottfrid's work is the stuff of another person's nightmares. Nightmares often come true in Night City, and when they do, he takes them (or buys them) and edits them to turn 01000101 a profit. As a matter of fact, he's fairly [redacted]. He's a craftsman 00040 without a conscience – an advantage in his line of work. If the material is good, Gottfrid will take [REDACTED] a raw BD from anyone and [redacted], no 01000001 questions asked. The closest person to him is his son, Fredrik, whom he taught and trained in his craft. When they're not editing together, they [redacted].

Bartolomeo owns [redacted]. No surprise there – [redacted]. So why have [redacted]? Well, for parties, obviously. The crème de la Night City crème [redacted] relax and forget about all their really important life problems. Bartolomeo mingles among them, laughs, pours Champaradise and cuts the good stuff on a silver platter. Then when 01010100 everyone's loosey goosey and itching for action, he starts scrolling. Bartolomeo's recordings are low quality, chaotic and edited without any rhyme or reason, but they still [redacted].

Every [redacted] knows Claire, the bartender who knows their favorite drink by heart, what they drank last time, and even what their friends ordered. Likewise, most know a few facts about

FEDERAL INTELLIGENCE AGENCY

Claire too. She's a transwoman who hasn't installed a single piece of cyberware in her 00101110 body. She quit her job as a Militech engineer. And she's responsible for [redacted] the bar menu. [redacted], of course. [redacted] 0o141 clients know, however, is that Claire owns her own autoshop where she can be found spending hours under the hoods of broken-down cars [redacted].

Benedict McAdams is a merc in Night City specializing in [redacted] He's effective, diligent and reliable – on top of that he's considered an all-round nice guy and liked by everyone he works with. Ask [redacted] – if you could get decomished by anyone, who would 00100000 it be? The answer's always McAdams.

In her younger days [REDACTED] she was a [redacted] – today she's the queen of fixers. One of the last legends of Night City who's more than just handed-down stories. Unlike her friends from the good ol' days [redacted] does more than get by – she runs [redacted] almost the entire Night City merc network. Every serious job needs her 01000100 thumbs up, and [redacted].

Everyone who's anyone knows him, whether it's Dino the fixer in [redacted], or Dino the rockerboy bassist [redacted]. Strangely, despite them playing sold-out shows, nobody's heard 0o156 Dino play. You holler at Dino when you need something – [redacted]. Dino's your man – Dino'll 01001111 [REDACTED] get it done. Like every good fixer, Dino keeps mixed company – he's just at home with [redacted]. You can meet them all in Dino's bar. It's worth dropping in – someone's bound to pick your brain over a drink... or

FEDERAL INTELLIGENCE AGENCY

throw up on your shoes. You might leave with a black eye or an STI, but that's how this city rolls?

Jack's a merc, [redacted]. He enjoyed his work just a little too much and became an adrenaline junkie. Where clients want discretion, Jack wants to hear screams. So one day, instead of taking out his target quietly, he put on a show for the entire city. Fair enough – it was only a matter of time before Jack pissed someone 01000111 off and landed in their crosshairs. So what did he do? He quickly bought a run-down club in City Center, fenced it in with guards and shacked up in the VIP area. He knows it's not enough to [redacted] [REDACTED] just a teensy bit harder.

—---Everyone knew [redacted] – when that was still his name. Now, after shedding his old identity and becoming [redacted] in Pacifica, nobody knows what he really looks like or who he really is. Back in the day he [redacted] 0o040 restructuring. [redacted] [REDACTED] survived 01010100 the attack and escaped, but when a price was put on his head, he [redacted], Night City air. [redacted] – cold, calculating, and laser-focused on his goal. There's only really one thing he cares about – making enough eddies to finally get out of this godforsaken dump.

Before he became Santo Domingo's most well-known fixer, El Capitan was [redacted]... ah who the hell cares anyway. But, all too quickly he realized that with corps it's always the same ol' tune – either they fuck you, or you fuck them. He preferred the latter. Often those who escape poverty like to help out their less fortunate peers – like El Capitan. Sort of. On one hand, he makes a fortune as the go-to fixer for half of Santo Domingo's working class, but hey 01001111 – at least he makes sure people can pay their rent. Don't like it? Find your own gigs. When a gangoon decides they'd rather save a buck by breaking your legs instead of paying you, look around – is that Capitan watching

FEDERAL INTELLIGENCE AGENCY

from his limo window with a smirk on his face? //h3_$41d:"b1t3_th3_f1r3w4ll_1f_y0u_d4r3"

Dex never shot hoops, jumped roofs, or pulled a trigger. Likewise, he never felt the need to [redacted]. Wait, never pulled a trigger? Yes, that's right, Dex never popped lead in his entire life. People – that's what Dex was good at. 01010111 Dex is one of [redacted]. He's a pretty big deal, both literally and figuratively. Word on the street is that [redacted], but that's just the nature of biz, ain't it? Besides, when someone like Dexter 0o141 DeShawn has a gig for you, you don't ask questions – you just shake on it.

Officially, the [redacted] in Night City, but most take that explanation with a heap of salt. Unofficially, one rumor has it that [redacted] capitalist, libertine charms. Still, the million eurodollar [REDACTED] question remains – what is he really doing here? Many 01001110 would pay handsomely for the answer. After all, this is a man who [redacted].

If you're looking for [redacted], go to [redacted] fixer named Wakako Okada. Rumors abound, but as of yet nobody's worked up the nerve to ask her about [redacted]. She didn't kill any of them, probably, but hey, what's important is that they're gone and she's still going strong, growing richer and more powerful by the day. [redacted] respects Wakako. Going into a meeting with her is like getting into a cage with a lioness. Sure, the lioness is polite, but you can tell she's already thinking about her next snack. Maybe 00100000 that's why Wakako's [redacted]. Wakako takes this entirely for granted.

A fixer with Chinese heritage operating out of Watson. She used to work as [redacted], but after the station was acquired by the media 01001001 [redacted], Regina decided it was time to find a better medium to spread her

FEDERAL INTELLIGENCE AGENCY

message. She mobilized all her 0o144 contacts – [redacted]. From their point of view, Regina hasn't changed a bit – she's always been a fighter, a girl from the streets. The only difference is that before she bought gossip and sold news – now she spins both.

The Badlands' resident fixer and a member of [redacted]. At first glance Dakota seems like a harmless desert-dweller. It wouldn't be wrong to say that [redacted], she lost touch with reality – in her 01010011 free time she [redacted]. But if you ignore that, she's an extremely perceptive fixer with a mind for [redacted]. Those who take on her jobs always make sure they're done to a tee – because firstly, Dakota's never gone behind anyone's back, and secondly if they decided to go behind hers, they'd be vulture breakfast in no time. You'll also notice she [REDACTED] doesn't go anywhere without [redacted].

Roaming the Badlands, looting scrapyards, raiding fuel depots – life on the road wasn't 00100000 easy. But growing up in a nomad clan has its perks. Honesty, [REDACTED] integrity, 0o144 and a [redacted].

Iris Tanner is a talented techie and the textbook example of someone whose job is their life. When it comes to a gig, it's never about the money, but the challenge. Still, that doesn't stop her from [redacted]. Despite being terse and hard to 01000111 talk to, she's convinced she's good at reading people – what she doesn't realize is that her deep-seated desire to be admired for her skills actually [redacted]. That's one of the reasons she got into serious trouble with [redacted]. On principle, Iris doesn't work with fixers, but she's willing to make an exception for Dakota – not

FEDERAL INTELLIGENCE AGENCY

because she likes her, but because this time she needs her.

Panam is a nomad /*s0_h0t!*/ – although, maybe "ex-nomad" rings truer these days. She locked horns with the family's leader, Saul, left Aldecaldo nation and moved to Night City to try her luck as a merc. Panam's life is at a crossroads – on one hand she knows her life needs a change, it's now or never. On the other hand, burning bridges with the nomad family where all her friends are might have been a bit drastic. On top of that, 01010010 Night City doesn't take too [REDACTED] kindly to nomads or have patience for people like Panam who are [redacted].

Head of the Aldecaldo family that also counts Panam among its members. After becoming a leader he [redacted], which didn't exactly go down well back at the camp. The truth is, Saul became leader at a very difficult 01001111 time when any strategic slip could tear the entire [REDACTED] family apart. He's always tried to do the right thing and never denied responsibility for his own choices. Uncompromising, stubborn, bold and principled – he commands a kind of reluctant 0o162 respect that's [redacted].

Mitch is a member [redacted] in the Aldecaldos nation. During the [redacted] number of other 01010111 Aldecaldos, Mitch [redacted] with [REDACTED] the [redacted]. After [redacted], Mitch helped the Aldecaldos with their [redacted] – a much better fit for him than [redacted]. He's good friends with Panam and is one of the most respected members of the family – loyal to his friends, uncompromising with everyone else.

//m3t_4_cyb3rd0g_1n_7h3_$tr33t They say if you wanna understand the streets, you gotta live 'em. Gangs, fixers, dolls, small-time pushers – you were raised by them all. Down here the law of the jungle dictates the weak serve the strong – the only law in Night

City you have yet to 01001001 break...

Royce isn't the 01001110 [redacted] fashion sense includes a set of red-hot LED optics straight from hell. No – what stays burned in your memory is [redacted]. As a leader, he's always been polarizing. Either his goons love him... or they hate him. But if Royce truly is mad, he might just be [redacted]. He's been running Maelstrom's affairs with surprising success. Probably because the only way to stay alive is to do biz with him.

I was [redacted]. My very first memory was of the rust-bitten pipeline that 00145 ran through [redacted]. I was terrified that it would break and we'd all drown in the flood. Stupid, huh – as if there was any water in there. When I was 15 I 01000111 finally got up the courage to go look on [redacted]. The only thing that overflowed was trash. And we were already drowning in trash, so what difference would a 00101110 couple bags of rotten meat make?

Some people are luckier than they deserve to be. No matter what they do, they always land on all fours without a scratch. Sooner or later they start thinking they're invincible, and that's when they become dangerous – to themselves and everyone around them. Nobody fits that description 00100000 better than [redacted]. Chatty and [redacted] can do whatever he wants. Better to steer clear of people like him, unless, of course, someone pays you [REDACTED] to help him out.

[REDACTED] was one of countless kids raised by the streets of Night City. Crafty, street-wise and 01001011 familiar with all the people worth knowing. But one detail separates him from most of the pack – [redacted]. These days he's [redacted]. At 11, he [redacted]. At 12, they had him dealing. Then three years later he set off to make a name for himself. [redacted] only two things really matter on the streets: sticking to your word and cold, hard

FEDERAL INTELLIGENCE AGENCY

cash (not necessarily in that order). Dozens of scars and close calls later, he finally achieved what he always wanted: recognition. Fixers knew his name and kept the jobs and eddies flowing his way. He often worked with [redacted] usually "too often." After 0o163 all, mixing [redacted] can agree on.

Clouds' very own "caretaker" – Woodman (as he's called) is responsible for evaluating the dolls' performance and the guy who solves problems, including disposing of problematic dolls. A smooth operator 01001000 with [redacted] – he's right where he wants to be. Ridiculously self-assured, [REDACTED] generally rude and a smartass – some say Woodman was born without an ounce of empathy, but that's not entirely true. He has felt compassion – once – but didn't see any use for it. Still, people like Forrest are indispensable to [redacted].

If Night City had a contest for the most rotten-to-the-core piece of human garbage, Jotaro Shobo would stand a pretty decent chance of winning. Maybe not first place, but he'd definitely be up there. Jotaro is a [redacted] who, thanks to his intelligence, loyalty and ruthlessness, quickly made his way up the pecking order. He rules his lackeys with an iron fist and is never late with [redacted] to his 00100000 various "hobbies." One of them includes [REDACTED] recording braindances, and [redacted]. Tailing.

Once upon a time a doll like any other at Clouds, through her wit and sheer determination she became the [redacted] just two years. Maiko knows perfectly well that [redacted] in Night City, including 0o163 its most fundamental benefits – respect, eddies and security. Maiko paid a high price to reach her coveted position – she treats those who don't try to improve their conditions with contempt, but at the same

FEDERAL INTELLIGENCE AGENCY

time she 01001001 seethes at anyone who reached success easier than her.

Sergei Karasinsky is one of those people that should really [redacted]. It's hard to believe he's made it this far in Night City, but somehow Karasinsky always manages to avoid utter catastrophe by the skin of his teeth. [redacted] able to [REDACTED] pull Sergei out of his latest mess involving [redacted] with 01010011 delivering a very... 00100000 unique present to the gang as a way of apology.

An alarmingly [redacted] – the gang that rules over [redacted]. Maman Brigitte hired [redacted], so chances are she'd know enough about how to safely 0o040 [redacted]. Thing is, Brigitte has [redacted]. Brigitte's not the kind of [redacted] – she takes on the riskiest jobs 01000001 and is always ready to [redacted] – everyone else oughta keep their distance.

Placide – one of the [redacted], a secretive and elusive [redacted] normally don't want anything to do with people from the "city," but [redacted]. He's not much of a talker and despises helping outsiders, but [redacted] 01001100 get access to [redacted] problem.

[REDACTED] Crowded. That's the one word I'd use 01001100 to describe [redacted] here, can't even spit on the street without it landing on someone's back. But that hardly means people want to live here – just the luck of the draw, right? It's why I prefer to stay at home. Some places are best experienced from behind a locked door.

Real name – Sebastian Ibarra. Formerly a priest in the Valentinos, but after the bloodbath [REDACTED] in Moto Cielo he converted to a

FEDERAL INTELLIGENCE AGENCY

more noble calling 00100000 – that of the 01010000 fixer. He started out by lining up jobs exclusively for his people from [redacted] the Valentinos – later he even shook hands with [redacted]. Who knows, maybe it's because he softened up in his old age, or maybe it's because [redacted]. Padre does things according to his own code of honor. He doesn't [redacted] – his interests lie in maintaining the [redacted]. //h3y_hum4n_k33p_0n_r34d1ng

01001111 A proud [redacted]. Jackie's stubborn – when he wants something, he [REDACTED] won't stop (or shut up about it) until he gets his hands on it. Jackie always wanted a lot out of life – maybe too much. As a teenager, he [redacted] – he quit. For years he hustled 0o151 through [redacted], because you need more than a [redacted] – you need street cred. Jackie's life goal has always been to [redacted] make a heap of eddies along the way. /*r35t_1n_P34c3*/

Guadalupe Alejandra Welles – but everyone calls her Mamá. It's /*qu3_bu3n4_muj3r*/ almost taken for granted that whoever walks through her front door can count on being listened to as well as sitting down to a delicious meal. And like every mother, she would give up anything – even her life – to protect her children. An important [redacted]. Padre even once said that not only does Mama Welles have a good heart, but that she's 01010111 [redacted].

Night City is too dangerous a place to not have insurance. [REDACTED] But not in the sense of a normal health insurance policy – those are useless. No, you need [redacted]. Some call [redacted]. He invites the city's 01000101 influential to his clubs, loosens them up with drinks, maybe slips in a few drugs just to speed things up and then, once

FEDERAL INTELLIGENCE AGENCY

they've slipped into a cozy stupor, it's lights, camera, action!

—--Open an encyclopedia and flip to [redacted] You should find a picture of 01010010 [redacted]. But who reads encyclopedias these days anyway? Just one look at [redacted] inside and out. His style could be characterized as ruthless – a trait that's certainly helped 0o156 him [redacted]. Recently, however, [redacted] has been acting... strangely. If the rumors are true, he [redacted] than doing what [REDACTED] he's been known and feared for – [redacted].

Lord, there's no one here. And it's incredible, the peace, the quiet, the sand. I love sand, especially when it's mixed with oil, I like the way it glitters under the sun with a million colors. At night I listen to this buzzing in my skull, a leftover from my time in Night City. That was the biggest mistake of my life. But now I'm free, kicking up sand like a child, living in my own personal sandbox, and if I wanted 01000110 I could build my own city right here and show 'em all.

What's that secret ingredient that makes a boxer great? Generational talent? Perfectly tuned cyberware? Unmatched dedication? No. The answer is an [redacted]. One like Roh Chi Won – a man [REDACTED] 01010101 who [redacted]. He has an eye for [redacted]. Although he's got the emotionally distant tough-guy vibes of [redacted].

Some people get the occasional urge to just fuck someone up. And if they've [redacted], 01001100 they can't NOT use them, right? But what's tragic is when they don't know when to let up – when [REDACTED] they know the other guy's already a wet pile of bloody pulp but they just keep pounding away anyway. [redacted] he invites into the [redacted] get carried back out on a stretcher. And sometimes in
